

IGS Commitment Letter for [Nine-Character Station Code]

The [Funding Agency] proposes the inclusion of the GNSS station [Nine-Character Station Code] ([City, Country]) in the IGS.

The station [Nine-Character Station Code] has been installed following the Guidelines for Continuously Operating Reference Stations in the IGS. Once accepted in the IGS, the [Funding Agency] commits to continuously maintain and operate this station for a **period of at least 3 years**.

The station [Nine-Character Station Code] will be operated by [Name Primary Contact] ([Funding Agency]).

The [Funding Agency] agrees that the IGS attributes the CC BY 4.0 licence to all incoming RINEX and real-time data of this station.
