Next destination: Japan

IGS Workshop 2028 in Japan

Candidate date: 24-29, September 2028

Main Hall (max 4450 seats)

Conference Room (max 63 seats)

Conference Room (max 126 seats)

Poster space (max 100 poster)

Venue : Tsukuba International Congress Center

MICE in Ibaraki

Our Expectations

- **Opportunities for New Participants**

- Facilitate an opportunity for potential participants in Asia and the Pacific to attend the workshop through MGA (Multi GNSS Asia), APREF and etc.
- Facilitate the participation of new IGS associate members and contributors, inviting university students, young professionals and policy makers in Japan

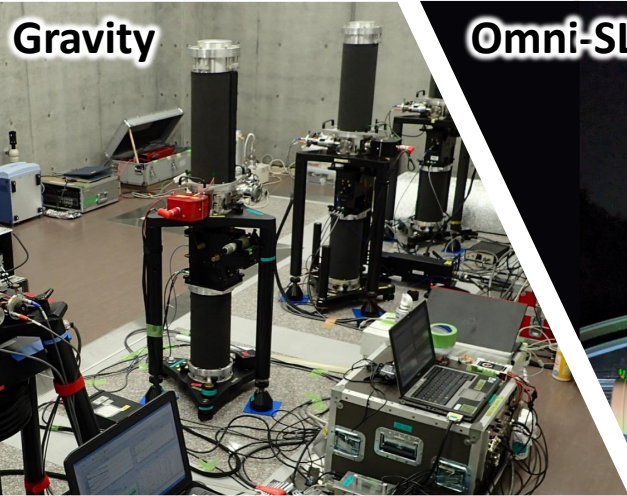

- **Timely and/or Emerging Technical Themes**

- Forum for sharing information on timely and/or emerging technical themes such as space geodesy (e.g., Genesis) and Multi GNSS + LEO-PNT etc.
- Contribute to disaster risk reduction utilizing GNSS technology

Of course, we hope that participants will discover and fully enjoy Japanese specialties!

Other Opportunities ~Science tours~

Gravity

Omni-SLR

VLBI and GNSS
