A strong international turnout, with broad in-person participation and representation from across the Americas, Europe, Asia, and Oceania.

Abstracts Overview

138
Abstracts

29
Countries

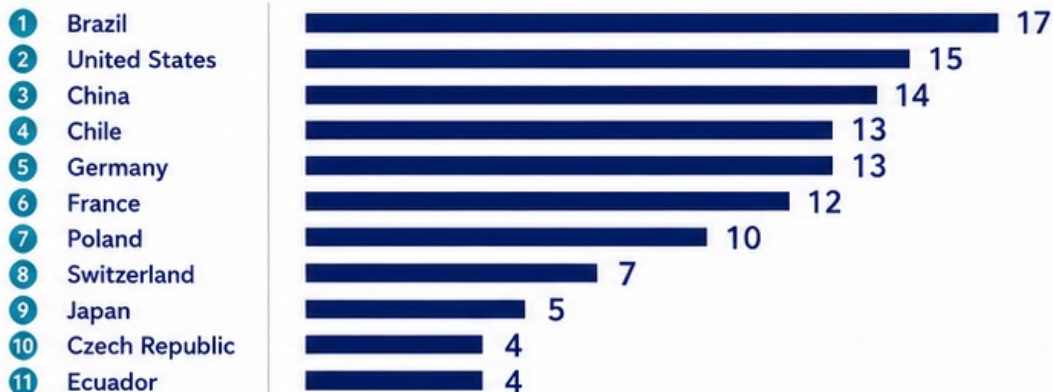

5
Scientific
Themes

The submitted abstracts reflect broad international participation and a strong scientific focus on GNSS processing, reference frames, atmospheric applications, infrastructure, and societal uses.

Top Contributing Countries

Other contributing countries complete the total of 29 countries and 138 abstracts.

Topic Distribution

IGS01 – GNSS Infrastructure and Data Integrity in a Multi-Constellation Era

22

IGS02 – From Orbits to Reference Frames: Advances in GNSS Processing

46

IGS03 – Real-Time GNSS Services and Next-Generation Positioning

19

IGS04 – GNSS as a Sensor of the Atmosphere and Space Weather

30

IGS05 – GNSS for Society: Geohazards, Climate Change and Sustainability

21

United Nations policy brief

- Prepare **one slide** (for oral presentations) or one **A4-size portion of your poster** addressing **how IGS activities support the global geodesy supply chain**
- **Upload** your final presentation or poster by the **end of the Workshop**.
